PERSONAL STATEMENT

Results-driven Software Engineer with professional experience in NestJS microservices and MERN stack development. Proven track record in building scalable backend services and automated delivery systems, complemented by a published research background in AI/ML integration at IEEE ICCCNT 2025. Highly adaptable and detail-oriented, with a commitment to delivering high-quality, efficient code and contributing to innovative development teams.

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript, Kotlin, Python, SQL, C++, C, R
- Frameworks & Tools: NestJS (Microservices), MERN Stack (MongoDB, Express, React, Node.js), Android Studio (Kotlin), REST APIs, Git, Jira, Machine Learning APIs
- Other Competencies: Backend/Frontend Development, Database Design, Scalable API Architecture, AI/ML Integration, Version Control & Release Management

WORK EXPERIENCE

Associate Software Engineer – E-W Information Systems (Pvt) Ltd **October 2025 - Present**

- Developing a backend using NestJS microservices for a School Learning Management System (LMS).
- Implementing features for student and teacher onboarding, system monitoring, and role-based access.
- Designing and maintaining scalable REST APIs and backend services.
- Building a MERN stack application for automated PDF generation and WhatsApp-based document delivery.
- Implementing dashboards to monitor daily operational records for an institutional management system.

Intern - Epic Lanka Pvt. Ltd. **February 2024 - August 2024**

- Worked on EKYC Seylan Admin, EKYC Product Admin, and EKYC Report Generator Module.
- Added new features, fixed bugs, and improved code in various projects, while managing version releases and maintaining a detailed logbook.
- Collaborated with the QA team to solve issues in the Digiface web app, working on both frontend and backend tasks.
- Designed and mapped database parameters for reports and handled customer requests.

CONTRIBUTED PROJECTS

Research Project – Project Management Tool (Full Stack Web App with AI/ML Integration)

- Implemented project timeline prediction, defect estimation, task duration forecasting, and best member recommendation using machine learning and online APIs.
- Published the research paper at the IEEE ICCCNT 2025 conference.
- Qualified for the 27th National ICT Awards – NBQSA Sri Lanka 2025 under the Tertiary Student Project – Business Category.

Easy Reach Store - Shopping Application for Visually Challenged (Android studio - Kotlin)

- Co-developed an Android shopping application tailored for visually impaired users, focusing on accessibility and ease of navigation.
- Co-authored a research paper titled “Easy Reach Store: Shopping Application for Visually Challenged,” published in the European Chemical Bulletin journal.

Gems and Jewelry Web App (MERN Stack)

- Implemented feedback management using MERN stack.
- Developed a feedback submission form with star rating, validation, and error handling.
- Enabled feedback listing and filtering based on user search and timestamp.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

Malabe, Sri Lanka

- BSc (Hons) in Information Technology – Software Engineering

2021 - 2025

OTHER SKILLS AND ACHIEVEMENTS

- Speaks 2 Languages (English, Sinhala).
- Drummer: Share professional drum covers on social media, perform with bands, and take on freelance event gigs.
- Basketball: Played and led the school basketball team as vice captain up to Under-20 level; secured Central Province runner-up title three times.
- Technology Enthusiast (Passionate about modern technology, with a keen interest in the latest hardware and software advancements).
